Subject: Request review - Revised Q&As + other resource materials for potential press questions

On Friday 6/15, the Navy expects to release its draft workplan before 9 am. If you get press questions that day, Michele, Brianna, and I will be out, coincidentally. I will have only limited access to email that day. I will check email/voicemail Fri night at the latest. John Chesnutt is my backup, Thomas Butler is Brianna's backup. Michele will find out who her backup will be.

In preparation, thank you to Jackie and Thomas Butler for their reviews of the previous version of Q&A's re Parcel G Workplan. I have incorporated comments in the revised "Version 3" attached for legal and other review. I have also added new Q&A's based on what Michele and I heard from reporters at the Navy's conference call this morning and on Polonium 210. Thank you for your help.

In addition, since Michele, Brianna, and I are all out Fri, for your convenience/reference, I am attaching other material that has already gone through varying levels of EPA internal reviews that may help you get started on responses to potential questions.

Lily Lee
